AUDIT FINDINGS

NARRATIVE

Baldwin County Regional Juvenile Detention Center had its first PREA Audit conducted on October 13, 2016. The facility did well in preparing files for audit and assisting the Auditing Team in setting up interviews with staff, administration, and detainee(s) that were detained at the time of Audit. The files were a work in progress although documentation had been maintained for the purpose of categorizing the files. Staff employed and Youth housed at the time of audit were very knowledgeable of the standards and shared that knowledge as well as asked questions during the interview process, much insight was given during the interview process that provided an overall census of “sexual safety” was key and that Baldwin County Regional Juvenile Detention Center had a “zero tolerance” for sexual misconduct.

Prior to the arrival at the facility the PREA Auditor and the facility’s Director communicated occasionally. This preparation made the Audit process transition smooth. Upon arrival at the facility, we conducted a very conclusive walkthrough, took several pictures, conducted interviews with a random selection of staff and detainees, and in addition to the PREA Compliance Manager, spoke with the PREA Coordinator and Executive Director in an exit interview to address any concerns and questions.

The Crisis and Intervention Center and the Investigator were all interviewed by phone and were very informative of the screening process, and the steps to be taken from the forensic and counseling intervention standpoint when an investigation is conducted. During the conversation with the Investigator information was verified pertaining to their departmental roles and how the correlation between the Baldwin County Sheriff Department and the Crisis and Intervention Center worked hand and hand. Upon the review of documentation and through interviews, it was reiterated that PREA Audits are like none other, the Auditor must be satisfied that policy or procedure exist to satisfy the standard, that the practice in place is consistent with the standard and policy, and that the policy and practice has become institutionalized. The PREA Compliance Manager and PREA Coordinator worked extremely hard with the newly positioned Director to ensure consistency and compliance were both met, and accommodated the Auditor where necessary adjustments were

needed.

DESCRIPTION OF FACILITY CHARACTERISTICS

Baldwin County Regional Juvenile Detention Center's total bed capacity is 30. The age range is 13 to 19 years of age; the facility has admitted 461 residents in the facility in the last 12 months.

The Baldwin County Regional Juvenile Detention Center was created by an active Legislative in 1990, the construction of the building began in July of 1991 and was completed in April of 1992. The facility opened on June 15, 1992. The Baldwin County Regional Juvenile Detention Center is licensed by the Department of Youth Services on an annual basis. The mission of the facility is to provide temporary care of delinquent youth or youth who alleged to be delinquent in secure custody pending court dispositions or transfer to a residential facility for the further care of a child adjudicated to be delinquent. Included is the temporary care of juveniles or pending return to their home states pursuant to the Interstate Compact on Juveniles or pending their return to a residential facility from which they have absconded while in treatment under court order.

The facility strives to provide a humane setting to the fullest extent possible within the confines of a secure environment. To this end, the facility will provide a variety of services, educational, recreational, medical, food and religious. Those services which cannot be provided within the facility will be available from resources within the community and residents of the facility maybe transported to those services or arrangements will be made for service providers to come to the detention center.

The staff and administration of the facility are trained to be competent and caring individuals who are concerned about the well-being of residents at all times. A behavioral management program is used to provide motivation to improve their relationship with other residents and with staff. While the detention center is not a treatment facility it must not be a place for idleness, boredom, frustration and alienation. The detention center's care program promotes meaningful activities, opportunities for self-employment, personal reflections, and frequent interaction with caring professional staff members.

SUMMARY OF AUDIT FINDINGS

There were no incidents of sexual abuse, assault or harassment reported during this audit period and there were no findings of inadequacy from the Department of youth services that would discredit the facility's zero tolerance policy. This was confirmed by the review of the narration of the Licensing agency report, and through PREA Compliance Manager, PREA Coordinator, and the Executive Directive of the Facility. A total of 41 Standards were reviewed, 1 exceeded the Auditors expectation (with the material and training of staff). A random selection of both staff and residents were interviewed, see the following for classification of staff;

- PREA Compliance Manager
- Detention Officer (s)
- Investigator/Crisis Center by Phone
- PREA Coordinator
- Executive Director
